to a harmful substance for a long time. Many factors play a part in whether you get sick from contact with chemicals, including

- The kind of chemical you are exposed to,
- How much of the chemical you were in contact with,
- How long the contact lasted,
- How often you were exposed,
- How it entered your body, and
- Your health.

requires all the mineral names to be given as prefixes to the structural root term. This may result in very long names. If the mineral names are replaced by abbreviations, the length of the terms can be reduced to more than the half. Also in phase diagrams, databases and for many other purposes mineral abbreviations are very helpful. 3BBasis of the list In 1983 Kretz published a list of ...
