Flint and stone tools have been manufactured and used since the earliest times and arguably they represent the world's oldest technology. The Lithic Studies Society was founded in 1979 to advance the international study of lithic industries, and particularly flaked and ground artefacts, in the broadest possible context.

Stone Tools & Society. London: Routledge. ABOUT THIS BOOK Stone tools are the most durable and, in some cases, the only category of material evidence that students of prehistory have at their disposal. Exploring the changing character and context of stone tools in Neolithic and Bronze Age Britain, Mark Edmonds examines the varied ways in which these artefacts were caught up in the fabric of ...

Stone tools have been used as cognitive/chronological, cultural/ethnic, and functional/environmental indicators in African prehistory. Consider the possible problems associated with each of these interpretative approaches. By Michael Brass 1. Introduction African archaeologists have utilised the typological categories introduced by Goodwin and Van Riet Lowe, and the lithic Modes of Clark, to ...
