The problem of optimal design of the statically indeterminate arch girder which constitutes the primary structural system of the arch bridge is presented. The task is to determine the optimal shape of the axis of the arch girder, as well as the optimal distribution of the cross section height, ensuring the minimum arch volume as well as ...

The Optimal Design of an Arch Girder of Variable Curvature

The above sequence supplies the necessary mathematics background for most majors in science and engineering. It also provides a solid foundation for the major or minor in Mathematics, or in Mathematical and Computational Science.

Abstract. An overview of the complexity leadership literature is provided. This includes a history of complexity theory and its core concepts, the central propositions of complexity leadership, a review of six prominent frameworks, and a summary of practitioner guidelines.
