The Color of Art: Home - Pigments and Paints

Color psychology, an extension of color analysis, is a valuable tool that is used in conjunction with the analysis of colors. In reality, the psychological connotation of a color has nothing to do with its effect upon the color of one's face or the results in the mirror.

Color analysis (art) - Wikipedia

The elements of art are components or parts of a work of art that can be isolated and defined. They are the building blocks used to create a work of art.
